Things that make life easy for a small team of scripters or image jockeys don't necessarily make for a good tool for the average image maker. I'm piloting the Reinvent PS eBook right now, one of the guides The Gentleman turned me on to. He wrote about it himself here. Since the *Photoshop* DVD is complete with all of the digital swag I've need in this review, I can't supply you with anything further in this review, but I can give you a description of the DVD: **Adobe Photoshop Elements 2021: The Complete Image Library (DVD)**.
